They most certainly would shut down a city and put people out of work to serve their own interest.

I heard on Bannon's show today that Washington had a note on a piece of paper, which fell from his hand during the winter fighting.

It said "Victory or death". Same potential results, different time.

I don't see that people going to DC are just going to back down.

They underestimate us — we are backed into a corner. And very dangerous.

It occurred to me recently that Washington's greatest strength was managing to keep the soldiers together, keep congress from replacing him and then using words to stop a planned rebellion by the troops who were pissed congress still hadn't paid them. No matter how bad things got people didn't stop believing in Washington and its strikingly similar to no matter how bad things have gotten during Trumps presidency people still "trust the plan" and id bet millions are willing to die following Trump.

Trump and Washington both have 1 thing no amount of bribery, manipulation, treasonous behavior will ever get those who went against them... loyalty based on the unshakable certainty that they are fighting for righteousness and the truth.

Well said. And very very true. He's given us not the will to fight exactly—the permission to fight? Confirmed that everything we felt and saw was true around us, and that we weren't wrong—it was actually worse than we imagined.

I think we will look back on this time and realize how lucky it was to gave the election stolen. I'm convinced trump did those lists 17 rallies in the last 5 days to get the whole country to swamp the polling stations and vote. I'm sure he wished that he won in huge numbers that night. But in many ways it's better that it has come to this. We must cut this cancer out and keep working to flood government at every level.

That's assuming we win of course.

Washington DC police only command a field force of about 2500 people at maximum(a full 1/3 which are women), assuming everyone is pulled into the field.

They can't be everywhere at once. They'll get tied up by pockets of people here that "look scary and threatening".

Yeah, if that happens you can walk across Key Bridge or Arlington Memorial Bridge (there are sidewalks). If she does shut down metro, that will be a big deal. A lot of folks here need the metro to get to work and when I went to the Stop The Steal marches, there were a lot of regular folks on there going about their daily lives. But she's cra cra so she may do it. She'd need a REALLY good excuse though (a false flag attack, maybe?)

Why would they comply? They'll have thousands of patriots to not only spend their money in whatever stores/hotes/restaurants that are open, but they'll also have thousands of patriots backing them up when the goons come to try and shut them down.

Staying open for those days, despite the orders, would be awesome for any business.
